Novus, the best selling gas fireplace of all time, is now better than ever with features that are customer designed and driven. Featuring a 19-1/8" deep firebox, this base dimension makes it ideal for both corner and side wall installations. Available in front glass width dimensions of 36" (25,000/17,000 Btu/hr input), and introducing the 42" (30,000/20,500 Btu/hr input). Novus direct vent models have identical framing dimensions to simplify installation. Features standing pilot or the industry-exclusive IntelliFire electronic ignition system. Other features include more designer front choices, upgraded burner system, larger logs, more firebox options, and larger viewing area.

IntelliFire™

- With IntelliFire, there's no need for a constantly burning pilot, saving the homeowner from extra expense
- When the fireplace is turned on, the pilot lights first then ignites the main burner; when the fireplace is not operating, the pilot also shuts down
- The IntelliFire system may be wired for 120V or operate with two D size batteries (not included) for operation during a power outage IntelliFire™
